VITALS

Flat No. GF-002, Vikas Paradise,3rd Main Road, 4th Cross, Brindavana Layout, Padmanabhanagar, BENGALURU, KARNATAKA 560061

Date of Birth   6th July 1998

EDUCATION

SSLC Webster's High School KSEEB **96%** 2014

PUC   SBMJC (Jain College)DPUE, Karnataka **80%** 2016

BE(ISE) - Don Bosco Institute Of Technology
VTU(Visvesvaraya Technological University) **6.87CGPA** 2020

HOBBIES

•Musician- Percussion Instruments (Tabala, Cajon, Bongos, Djembe etc,)
•EDM-electro dance music R&D and Use FL and Adobe Audition and PP for editing
•Sports - Cricket, Soccer, Badminton. •Traveling

CERTIFICATIONS

https://ajithbbhat.github.io/devwithaj.github.io/certifcate.html

OBJECTIVE:

Experienced Backend Developer with a strong background in designing, developing, and deploying scalable backend services and APIs. Proficient in JavaScript, Node.js, Golang, NestJs, MongoDB, PostgreSQL, and AWS technologies. Adept at optimizing backend processes for enhanced efficiency and performance, and committed to maintaining high standards of security and data integrity.

EXPERIENCE

Backend Developer, MoolFinance.com, Bengaluru — APR 2024—JAN 2025

Projects- MOOL-JANN(ITR filing), MOOL-VETAN(salary payroll system), Salary Personalisation AI Tool

- Developed MOOL-JANN (ITR filing) and MOOL-VETAN (salary payroll system) projects.
- Created a Salary Personalization AI Tool using Gemini API for automation.
- Utilized the MERN stack in a microservice-based architecture.
- Implemented Redis and NATS gateways for messaging and caching.
- Employed DataDog with Winston for data logging.
- Developed schedulers using cron jobs.
- Containerized applications with Docker and deployed on AWS EC2 instances.
- Managed version control and deployments using Git/GitHub.
- Deployed front-end applications to AWS Amplify.
- Integrated Strapi for content management.
- Tested APIs and services using Postman.
- Managed AWS Secrets, Security Groups, S3 buckets, and other AWS services.
- Raised and managed over **60+** pull requests and resolved bugs.
- Utilized Tailwind CSS and Ant Design (antd) for front-end development along with NEXT.js React.js.
- Ensured maintenance of CI/CD pipelines.
- Collaborated with cross-functional teams to deliver high-quality financial solutions.

Web Developer ,Happiest Minds Technologies Limited, Bengaluru — FEB 2022—DEC 2023

Projects- Skan Cohort management , Ecommerce, CMS and Scheduler based web app,

- Developed and maintained web applications using the MERN stack.

- Implemented server-side logic using Node.js and Express.js for efficient API handling.
- Designed and developed user interfaces with React.js, utilizing React-Bootstrap and Ant Design for responsive design and component libraries.
- Utilized Next.js and TypeScript for building scalable and performant web applications.
- Integrated external APIs to enhance application functionality and data retrieval.
- Implemented authentication and authorization mechanisms for secure user access.
- Collaborated with cross-functional teams to deliver projects on time and within scope.
- Conducted code reviews and provided constructive feedback to team members.

Prod Compliance Sr. Associate, AMAZON — MAY-2020 — JAN 2022
- Worked along with AWS tool S3 bucket to fetch data and maintain them with their tools like rosebread and paragon

SKILLS

Skills
- Languages: JavaScript (ES6+), TypeScript, Golang
- Frontend Technologies: React.js, Next.js, React-Bootstrap, Ant Design, HTML5, CSS3
- Backend Technologies: Node.js, Express.js, NestJs, MERN Stack
- State Management: Redux, MobX
- API Development: RESTful APIs
- Database Management: MongoDB, SQL
- Cloud Services: AWS (EC2, S3, IAM, VPC, CloudWatch, CloudTrail, AWS Config, AWS Lambda, Amplify)
- Containerization: Docker
- Version Control: Git, GitHub
- Automation & Infrastructure: AWS CloudFormation, AWS Lambda
- Other Tools: Postman, Fastest Validator

SUMMARY

Motivated and eager web developer with 4+ year of experience in developing and deploying web applications. Committed to delivering high-quality and scalable solutions that meet project requirements and exceed expectations. My work: https://ajithbbhat.github.io/ devwithaj.github.io/#work
